Speculation at the Stock Exchange was decidedly strong in the first hour of busihattan and the grangers. Stocks were well held, and even the sharp advance for a time failed to dislodge any great amount of the leading issues. Traders were confident that the bank statement would be very favorable, and not a few of them extended their lines on this theory. Distillers were not much of a buil card because of the reports from Chicago that the American distributing concern and the company were at loggerheads about the question of selling the latter's products. Evansville & Terre Haute was neglected. Bulls in Manhattan cornered the talk about an underground railroad, and the stock rose rapidly. The bank statement came up arolling and prices receded 40% per cent. Electric leading. At the close the market was weaker. The total sales were 160,618, Closing quotations were:

LOCAL GRAIN AND PRODUCE. The Trade of the Week Was Very Satisfac-

tory, with Prices in Some Lines Easier. In the wholesale departments the trade of the week closing Saturday was spoken of as very satisfactory, while in the main prices have ruled steady. Poultry, seed and hide markets are easier. The market East is overstocked with poultry. There are some articles which it is quite difficult to quote. There are so many varieties of peaches and styles of putting them up that one must quote them by the bushel as ranging from 75 cents to \$2.25 per bushel, Apples also vary greatly on account of the difference there is in quality. Coffees are firm at the advance of Thursday last, while sugars rule easier. The provision market is firm and the distribution much larger than thirty days ago.

There was a little more life to the local grain market yesterday. Wheat advanced. corn was firm at bids given and oats steady. Track bids ruled as follows:

The Largest Gains Were Made in Wheat and Provisions.

Better Bank Statement and Belief that the Crop Report Would Show a Decrease the Ruling Influence.

CHICAGO, Sept. 2.-Somewhat higher prices for wheat, corn, oats and provisions resulted to-day largely from the good showing made in the bank statement. The advance was greatest in the first and last of the articles named. Trading was not heavy, the crowd being apparently deerrous of reserving its strength to wrestle with the government report. Wheat, at the opening, was about 40 higher than yesterday's closing, advanced 'se more, and then receded 3sc. rallied 5s @340, receded 3sc, held steady, and the closing was about 120 higher than yesterday. The strength was influenced by the advance in railroad stocks, rather steady cables and liberal export clearances. Besides, some parties were calculating on the government report showing a smaller yield than that indicated in the percentages of last month. It is said that the visible supply will show a decrease of about 250,000 bushels, but it will not be surprising if there should be a small morease. A year ago there was an

increase of 2,456,000 bushels. Corn opened with a slight decline and soon afterwards sold off a fraction more, then the demand improved and the price advanced 20%c, reacted 40%c, ruled steady and closed with 404c gain. The Michigan report was decidedly bullish, and shorts, in anticipation of a bad government

report, were disposed to cover. In oats the near futures, especially October, were the strongest, owing to buying by shipping house and elevator men, and prices closed 4c higher. September was very quiet and steady. May was 3c lower early, but reacted to a trifle under yesterday's close.

more business passing than has recently been usual. The stiffness of the corn market was the principal cause. Compared with yesterday's prices. October pork 18 15c bigher and January is up 30c. Lard and ribs improved 10c and 15c. The demand for vessel room was fair and rates for corn firmer at 11/20 to Buffalo. with wheat the same. Estimated receipts for Monday are: Wheat, 175 cars; corn, 820 cars; cats, 350 cars; hogs, 32,000. The lead-

To Clean Table Lines.

New York World. Embridered table linen should be ironed over soft, heavy flannel covered with muslin. It should be laid with right side down and ironed almost dry with a very bot iron. Then it should be folded back and the embroidered part lightly pressed, while the plain is heavily ironed with a polishing iron. Roll it over a stick instead of fold-

stretch all tableclothe, damask napkins and heavy linens diagonally before ironing them. Red cloths must not be starched. Delicately tinted ones should be soaked in sugar of lead water before

Fine doyles should be placed in a white dish, covered with naphtha and stirred. Several days airing will be necessary to rid them of the odor. If they are not much soiled they way be pinned securely to a sheet and covered with powdered cornstarch. This should be well rabbed in, allowed to remain for half an hour, and then brushed and shaken.

THE

INDIANAPOLIS JOURNAL

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence andimportance. This want the Journal has always supplied as no other paper pubished outsideorinside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The ruuning of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in transportation.

The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to every hing having

a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful

supervision for each department. The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispens-

able in every well-regulated family. The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents.
